EDUCATION

BS in Computer Science (AI)

Abdul Wali Khan University Mardan September, 2026

CGPA: 3.44

Key Courses: Algorithms, Data Structures, Databases, OS, AI, ANN, Knowledge Representation And Reasoning, Machine learning, Computer Vision, Digital Image Processing

TECHNICAL SKILLS

Languages: Python, C++
Web: HTML, CSS, JavaScript
Tools: Git, VS Code, Linux, MySQL, Flask, Tableau

PROJECTS

Number System Converter (Python)
Created an app where the numbers are converted from one system to all the other converters.
Titanic Survival (Python)
Trained an AI model for the prediction of survival in titanic use logistic regression from scratch.
Spam Detector (Python, TensorFlow)
Exploratory Data Analysis (MySQL)
Cleaned and explored data of all PSL season seasons using MySQL

CERTIFICATIONS

ML specialization – Specialization – 2024
AI for Everyone – Course – 2025
Introduction to Python Programing – Course – 2025
Introduction to Data Science with Python – Course – 2025
Google AI Essentials – Specialization – 2025
Google Prompting Essentials – Specialization – 2025

ACTIVITIES

Content Writer, AWS Coud Club, AWKUM, 2025, 2026
Speed Programing at RoboFiesta 7.0, HITEC University Taxila
Code Canvas Competition, AWKUM, 2025
DNA day, CECOS Peshawar, 2025
IFAD, AI workshop, IHCMNS Mardan, 2025
